

Name: \_\_\_\_\_

Title/Position: \_\_\_\_\_

Organization: \_\_\_\_\_

Address: \_\_\_\_\_

City/State/Zip: \_\_\_\_\_

Telephone: \_\_\_\_\_

Fax: \_\_\_\_\_

Email: \_\_\_\_\_

Fee: \$850 per CCI/CPSI Client  
\$950 per Non-CCI/CPSI Client

Discount: **Past participants or groups of 3 or more will receive a 5% discount.**

Registration fee includes one and one half day of educational sessions, handouts, Tuesday lunch and a Tuesday evening reception.

Each participant will be provided with a comprehensive manual that includes detailed information for all codes discussed, a full list of CCI Edits, and detailed reimbursement summaries for multiple case studies.

Payment: Please send completed form with payment (check only) made payable to:

**Comprehensive Physics Services, Inc.**  
640 E. Dayton-Yellow Springs Rd.  
Fairborn, OH 45324  
Phone: (937) 902-4354  
Fax: (937) 878-4993

**For more information, please visit  
[www.cpsi.biz/2007conference](http://www.cpsi.biz/2007conference)**

Once registration is complete, you will receive a confirmation email with all pertinent information for your reference. Please be certain to fill out the registration form completely.

Please Note: **Cancellations made after June 1, 2007 are non-refundable.**

## Annual Radiation Oncology Coding & Billing Summit V

### Piecing together the coding puzzle...

**Marriott Columbus  
Northwest  
Columbus, Ohio  
June 19 - 20, 2007**

Hosted by

# The latest information on Radiation Oncology Coding including IMRT, IGRT & Brachytherapy

## Comprehensive Physics Services, Inc. and Churchill Consulting, Inc. are pleased

to announce that registration is now open for our annual Radiation Oncology Coding and Billing Summit.

This one and one half-day seminar will be conveniently held at the **Marriott Columbus Northwest in Dublin, Ohio.**

Tuesday June 19, 2007 8:00 a.m. - 5:00 p.m.  
Wednesday June 20, 2007 8:00 a.m. - 12:00 p.m.

Information is directed to radiation oncologists, residents, administrators, physics staff, radiation therapists, and billing personnel who are interested in accurate coding, maximizing collections and understanding carrier and collection issues.

## Summit V IMRT-IGRT-Brachytherapy & More

This conference's main focus will be on advanced technologies, such as IMRT and IGRT. Following detailed discussion of the codes reported for IMRT, including documentation and utilization guidelines, multiple case studies will be presented demonstrating the reimbursement for 2007.

This information will provide you with a guideline for accurate coding and reimbursement if you are already providing this level of care. If IMRT is in your future, then this information can be used to support the acquisition of advanced technology equipment.

## General Coding

Radiation oncology isn't just about advanced technology. This seminar will also include, but will not be limited to, discussion of the following codes.

Special treatment procedure (77470), IMRT planning (77301), IGRT (all four types), basic dosimetry (77300), isodose planning (77305-77315), special dosimetry (77331), special teletherapy port plan (77321), simulation (77280-77290), CT data acquisition (76370), 3D planning (77295), and device codes (77332-77334).

## Brachytherapy Session

The Brachytherapy portion of this seminar will include discussion of the usual and customary codes associated with brachytherapy.

Following the general brachytherapy code discussion, case studies for prostate seed implants, GYN regimens (LDR and HDR), and MammoSite will be presented.

Churchill will also include sample reimbursement summaries for each case study presented.

**This seminar is for YOU.  
We welcome your requests for specific coding questions prior to the seminar.**

## Sponsor

Comprehensive Physics Services, Inc., (CPSI) provides radiation oncology, diagnostic radiology, nuclear medicine, and radiation safety physics services to over 100 clients in free-standing and hospital-based facilities throughout Ohio and surrounding states.

Our total solutions capabilities, combined with our dedicated team of qualified and experienced physicists, dosimetrists and technical professionals, assure clients real-time access to the depth and breadth of expertise required for any medical physics need in:

- Radiation Oncology
- Diagnostic Radiology
- Nuclear Medicine and Nuclear Cardiology
- Radiation Safety
- Regulatory Compliance
- Accreditation (MQSA, ACR, JCAHO, ICNL, etc.)
- Training, Education and CEU's

Started in 1996 by John W. Swanson Ph.D. and Susan L. Folkerth M.S., CPSI's mission is **to totally satisfy the medical physics needs of healthcare clients by being their primary advisor and on-site expert** for clinical, technical, regulatory, and accreditation initiatives. This has earned us the reputation for continued success among clients as well as regulatory and accreditation inspectors.

## Speaker

**Deborah Churchill** is founder and President of Churchill Consulting, Inc., a national firm that has been providing products and services for financial processes and quality improvement activities in radiation oncology since 1992.

Deborah's seminar presentations are unique due to her clinical background, having graduated from Yale School of Radiation Therapy in 1974.

Deborah has published articles in The Journal of Oncology Management, Advance Magazine, Medicare Part 'B' News, The Oncology Nursing Magazine, and is a contributing editor for The Oncology Coding Alert and The Radiology Coding Alert.

Deborah has also had the pleasure of participating in the 'Gray Panel' discussions, sponsored by SROA at ASTRO, for the past four years.

Churchill Consulting, Inc. has been providing customized products and expert services in Radiation Oncology since 1992. Financial products/services include chart audits (ANALYSIS), coding seminars and compliance workshops (EDUCATION).

Churchill's DIRECTTREES® coding help application is the only electronic coding solution in the industry (SOLUTION).

Churchill Consulting, Inc. also provides comprehensive QA Programs for accreditation purposes.

## Code with Knowledge

In addition to understanding the coding and documentation requirements, all attendees will be educated on the Correct Coding Initiative Edits (CCI Edits) and the proper use of modifiers.

This information, combined with your coding knowledge, will ensure that you can support all claims while maximizing your collections.
